It is understood that this sum will not incur interest or charges of any kind. The Customer acknowledges and accepts only having the right to the reimbursement of the price paid and not being able to make any requests for indemnity, compensation for damage or claim of any kind against Aruba for the non-acceptance of the proposal and not therefore for the lack of activation of Service. - b) domain names which are available in the order phase, may not actually be, by way of example but not limited to, as they are already in the process of being registered by a third party even if they are not yet included in the databases of the competent Registration Authority.

The Service is enabled in respect of the times made necessary by the availability of the hardware resources and, in any case, as quickly as possible. It is understood that the terms for the Service activation, possibly planned, must be regarded as indicative only. The Customer is obliged to perform any necessary actions for the purposes of activating the Service; any delays due to failure to act by the Customer will not be attributable to Aruba. In any case, the Customer will be advised of any delay to the activation of the Service.

**5.2** This Service is provided until the expiry of the Contract. As that date approaches, as a courtesy and without assuming any obligation in relation to the Customer, Aruba reserves the right to send impending expiry alerts to the email inboxes associated or created via the Service.

**5.3** The Customer also has the right to buy, by means of a suitable order and payment of the corresponding fee, one or more of the Additional Services listed on the website <http://hosting.aruba.it/index.asp?Lang=EN>. It is understood that the Additional Services, regardless of the time of their activation, have the same expiry date as the main Service they are associated with, with the exception of advertising services (hereinafter, Advertising Services) that, on the basis of the type chosen, may also have a different duration.

The provisioning of Additional Services is governed and regulated by these General Terms and Conditions. Notwithstanding articles 6.3.1., 6.3.2. and 7.8, the Certified Email (PEC) services and Advertising Services are governed respectively by the General Conditions of Contract for PEC service and by the Terms and Conditions for the Supply of Advertising Services (published at <http://hosting.aruba.it/termini-condizioni.asp>, to which one must refer.

**5.4** The Customer may request the conversion of the Service, in the context of the possible solutions indicated on the website <http://ticket-en.aruba.it/Main/Default.aspx> taking care to make a copy of the data and the material processed via the Service, in advance and at their own expense, which is the subject of conversion request. As a result of the conversion the recovery of the content processed by the Customer via the converted Service is not guaranteed.

**5.5** It is expressly understood that Aruba is not subject to any general obligation to monitor, it therefore does not control or monitor the conduct or acts performed by the Customer via the Service, nor does it control or monitor the information and/or the data and/or content to any way processed by the Customer or his/her appointee and/or collaborators with the Service itself; Aruba is and remains extraneous to the activities that the Customer performs completely independently using the login details for the Service, remotely via the internet. In any case, once the Customer has accessed the Services they are the sole owner, in accordance with Legislative Decree 196/03, of the processing of any data entered and/or processed as part of the Service for the duration of the Contract and for 30 (thirty) days following its expiry.

**6.2** Prior to its expiration, the Customer can renew the Contract on the basis of the Price List and other contractual terms and conditions in force at the time of renewal.

**6.3** The renewal of the Service will preferably be finalised by the Customer at least 15 (fifteen) days prior to the expiry of the Service, by forwarding the relevant request and the payment, according to the procedures and deadlines referred to in art. 7, of the amount provided for in the Price List in force at the time of renewal. Once the renewal procedure is complete as described above, the Service will be renewed for the period of time contractually agreed with effect from the date of expiry of the renewed Service, even in the case where the renewal is completed after the expiry of the Service.

**6.3.1** Notwithstanding the above, if the "Auto-renewal" feature is enabled, upon the expiry date of the Service this will be renewed automatically for a period equal to the period initially selected by the Customer in the Order form. The Customer agrees and accepts that, now for then, in order to ensure the continuity of the Service, Aruba shall instruct its bank to make the payment in its favour 7 (seven) days before the Service expiry date. In case of failed payment, Aruba, as mere courtesy and therefore without assuming any obligation, reserves the right to make a new payment during the following days before the Service expiry date, subject to the following paragraph 4.

**6.3.2** The Customer acknowledges and accepts, now for then, that in the case in which: (i) they delete and/or remove the unique identification code of one or more of their credit cards and/or one or more PayPal account, via the Panel; and/or (ii) having chosen the "PayPal" method of payment, autonomously disabled the ability to make automatic payments via this method by means of their own PayPal account; the "Auto-renewal" option for the Service associated with these payments will be automatically switched off, such Service will therefore follow the regulation referred to in paragraph 4 below. The Customer acknowledges and accepts, now for then, that in case (ii) of this paragraph, the operation will take place in an asynchronous mode.

**6.4** On the date of expiry of the deadline for the selected Service, and, in any case, at the end of the contractual relationship for whatever reason, the Contract will cease to be effective, the Service will be deactivated and the Parties shall be free from the mutual obligations.

In any case, regardless of the reason for the termination of the Contract, the Customer waives, now for then, Aruba from any and all liability for any total or partial

loss or damage to data and/or information and/or content and/or processed by the Customer by means of the Service. The possible recovery of the data and/or information and/or content entered and/or processed by the Customer remains the exclusive responsibility of the Customer, after the reactivation of the Service, by concluding a new Contract.

**6.6** In any case in which the domain name, registered and/or maintained by the Registration Authority responsible for the Services provided by Aruba, is transferred to another Provider before the expiry of the Service, the Contract will be deemed ceased at the end of the transfer procedure, where this is concluded prior to the expiry; otherwise, it will cease on the date originally agreed. Any reimbursement by Aruba with respect to the Customer for the period of time in which they have not used the Service is explicitly excluded.

**6.7** The Customer agrees and accepts, providing his/her consent now for then, that Aruba on the expiry date, should the Service fail to be renewed, reserves the right to:

a) put, a web page in place of the homepage of the domain containing advertisements, without changing the registration details found in the WHOIS register of the competent Authority. Such content will remain displayed online until the actual cancellation date of the domain name from the register of the competent Authority; and/or

b) keep the domain name registration active and consequently change the details of the owner, authorizing Aruba to use the Auth Info code associated with the domain.

**6.8** It is to be understood that all the services associated with the domain name will still be disabled (but not limited to: hosting, email and any Additional Services).

**6.9** The Customer, after the expiry of the Service and within the time limits laid down by the competent Authorities and indicated on the website <http://ticket-en.aruba.it/Main/Default.aspx>, and in the cases referred to in the previous art. 6.7, letter b) also after such terms, will attempt to regain the assignment of the domain, according to the terms and conditions specified therein, providing for payment of the fee for the services that he/she intends to activate and any further amounts required to recover the domain from the competent Authority and indicated on the website <http://ticket-en.aruba.it/Main/Default.aspx>.

## 7. Fees, payment terms and methods and guarantees

**7.1** Unless a specific, separate and different agreement exists between the Parties, the payment of the amount of the Service as indicated in the Price List will be made by the Customer at the same time as the sending of the Order Form and in any case prior to its activation.

**7.2** Any payment made by the Customer will have its own identification number and Aruba will issue an invoice for it in the month it relates to. The VAT due will be applied to all invoiced amounts which, together with any other tax expenses arising from the execution of the Contract, will be charged to the Customer. In any case, the Customer, now for

then, releases Aruba from any and all liability arising from transactions or payments made.

**7.3** The Customer acknowledges and agrees that:

A) the payment of the price of the service must be performed according to the procedures published on the page <http://ticket-en.aruba.it/Main/Default.aspx>; and

b) for the purposes of determining the activation times, they are expressly and exclusively responsible for choosing a payment method taking into account the average time for processing the payments indicated on the page <http://ticket-en.aruba.it/Main/Default.aspx>; and for the effect,

c) they are expressly and exclusively responsible for paying the price for the renewal of the Service in a timely manner in order to be able to ensure its continuity and, anyway, before it is disabled due to the expiry of the Contract, also taking into account for this purpose the processing times of payments specified in (b) of this article.

**7.4** The Customer acknowledges and expressly agrees that the invoice may be sent and/or made available in electronic format.

**7.5** The Customer will be able to use any residual credits thereof for any reason not attributed to any Service to purchase or renew any other services provided by Aruba. This option may be exercised by the Customer no later than 12 (twelve) months from the date of payment of these credits using the methods indicated at the link <http://ticket-en.aruba.it/Main/Default.aspx>. If the deadline indicated above passes without the Customer having used the aforementioned credit, this will be deemed definitively purchased and claimed by Aruba and the Customer will not be able to request a refund or its use.

**7.6** In the event of ordering the Service and/or Additional Services during a free promotion, the provisions of these Provision Terms and Conditions relating to the payment of the fee will not apply until the respective expiry date. The afore-mentioned Service can be renewed according to the procedures indicated in art. 6 above.

**7.7** By reason of exclusive opportunity assessments carried out by Aruba, the latter reserves the right to ask the Customer, either before or after the Finalisation of the Contract, for the provision of a suitable means of guarantee and/or procedures and/or specific payment terms for the fulfilment of the Customer's obligations arising from it.

**7.8** Customers who wish to pay for the Service and/or the Additional Services by Credit card, agree and accept that the bank indicated by Aruba stores their Credit card details, which can be used by Customers to pay for any other service provided by Aruba.

Any other indemnity or compensation to the Customer for direct or indirect damage of any nature and type is expressly excluded, now for then.

**9.3** Aruba does not perform specific backups to the data and/or information and/or content processed by the Customer, through the Service, with the exception of the backup of all of the content of the storage that Aruba, as its own precaution, periodically performs for the purposes of a possible restoration of the Service; this does not however, release the Customer from making a complete backup of the data and/or information and/or content from entered and/or processed by them by means of the Service and taking all the necessary safety measures to protect them. Aruba in each case offers no guarantees regarding the use of the Service with regard to the protection and storage of these data and/or information and/or content, except for the activation by the Customer of the specific accessory service. Even in cases where the Customer has purchased the backup Service from Aruba, as the above service reduces the risk of data loss and makes it easier for the Customer to have the copy of the data, the possibility that the backup copy, also for reasons of a technical nature, may not be available at the moment when the customer intends to use it is not ruled out.

**9.4** Aruba will not in any case be deemed responsible for the use made of the Service in relation to critical situations which involve, for example, specific risks to the safety of people, environmental damage, specific risks in relation to mass transport services, the management of nuclear and chemical power plants and medical devices; in such cases, Aruba is available to assess and negotiate a specific "mission critical" agreement with the Customer with any respective SLAs.

**9.6** Aruba does not, in any case, assume any liability for any information, data, contents entered or transmitted and, in any case, processed by the Customer via the Service and, in general, for the use made by them of the afore-mentioned Service and reserves the right to take any initiative and actions, to protect its rights and interests, including notifying those concerned of useful data to permit the identification of the Customer.

**9.7** It is to be understood, and the Customer acknowledges and agrees to this, that Aruba is not in any way liable for the damage suffered by the Customer and/or by third parties, either directly or indirectly, as a result of the use of the Service.

**9.8** In the case where the Customer is a Public Authority, Aruba assumes all the obligations of traceability of the cash flows referred to in art. 3 of the Law of 13 August 2010 no. 136 and subsequent amendments and additions.

**9.9** Aruba reserves the right to periodically change the login details for the Service, which will be promptly communicated to the customer by sending to the reference email inboxes.

**9.10** Aruba assumes obligations of means and not of result. Aruba may not be liable for any direct or indirect damage suffered by the Customer as a result of errors in the information it has provided Aruba with and therefore for the failure to allocate the domain name to the Customer, for any reason. Aruba does not guarantee that the Services ordered by Customer are perfectly adapted for any particular purpose, or the Customer's needs.

**9.11** Aruba is committed to ensuring the best functionality of the system, but does not assume any liability in respect of either the Customer or third parties for delays, malfunctions, suspension and/or interruption in the provision of the Service due to causes not attributable to it, such as by way of example but not limited to:

- a) unforeseeable circumstances, catastrophic events of force majeure;
- b) act by a third party, even Aruba's supplier;
- c) malfunction or non-compliance of connection devices the Customer is provided with or in any case of those used by them;
- d) tampering or interventions on services or on the equipment performed by the Customer or by Third parties not authorised by Aruba;
- e) faults and malfunctions of the machines and software, whether owned by Aruba or its suppliers.

**9.12** It is agreed, and the Customer accepts, that Aruba shall take no responsibility both for the Customer and Third Parties for any provisions which the competent Authority may implement directly on the domain name and for the consequences which such provisions may have, by way of example only, in terms of use of the Service and/or visibility of the corresponding website on the internet.

## 10. Customer's obligations and rights

**10.1** The Customer has the right to use the Service 24/7/365 according to the Technical Specifications and as indicated in the Contract and acknowledges that, in any case of a breach or default attributable to Aruba, it will not be liable for an amount higher than that paid by the Customer for the single Service, ordered or renewed, concerned by the harmful event. Any other indemnity or compensation to the Customer for direct or indirect damage of any nature and type is expressly excluded, now for then.

**10.2** The Customer guarantees, even under, and for the effects of art. 494 of the Italian Penal Code, that the data, contact information and the information provided to Aruba for the purposes of concluding the Contract are accurate, truthful, up-to-date, and sufficient to permit their identification and undertakes to notify Aruba, by the procedures listed at the link <http://ticket-en.aruba.it/Main/Default.aspx>, of any changes to them, including the email address indicated in the Order Form, in the knowledge that the failure of this obligation can lead to consequences involving, by way of example only, even the revocation and/or suspension of the domain name.

Aruba reserves the right to verify such data and/or information even by requesting additional documents that the Customer undertakes, now for then, to submit. In any case, the Customer is and remains solely responsible in criminal and civil terms by having by any means, acted or attempted to act in such a way as to impair or prevent their identification. **10.3** The Customer is required to check the accuracy of the data in the database of the Authority responsible for the extension selected within 15 (fifteen) days from the date of activation of the Services; in the case where the Customer does not raise an exception over the correctness of their data within this period, they will be deemed to be correct.

The competent Authority has in any case and time, the right to check that the data and contact information indicated by the Customer for the registration of the domain name (Registrant Details) is correct also by requiring that they be confirmed directly by the latter via email and to suspend the domain name, in case of failed confirmation within the given deadline.

**10.4** The Customer acknowledges and agrees that the registration of a domain name involves the insertion of their personal data in a publicly accessible register kept at the Registration Authority responsible for the extension selected, except in cases where the customer:

a) has requested the obscuring of their personal data in the manner indicated by the ccTLD ".it" Register at the link [www.nic.it](http://www.nic.it), for domains with .it extensions;

In any case, once the Customer has accessed the Service they are the sole owner, in accordance with Legislative Decree 196/03, the processing of any data entered and/or processed by the actual Service.

**10.6** The Customer declares having all the technical knowledge required to ensure the correct use, administration and management of the Service and, in any case acknowledges and accepts that the processing of data and/or information and/or content that they have implemented by means of the afore-mentioned Service and their subsequent dissemination on the internet network via the same Service have been performed solely at the Customer's own risk and under their responsibility.

**10.7** The Customer acknowledges and agrees that any operation performed by means of the Service is presumed to be carried out by the Customer and that the knowledge by a third party of the login details or additional codes assigned to the Customer by Aruba, may allow the latter to unduly use the Service and access the information and/or the contents or data processed by it.
